PRICING POLICY: Our retail pricing policy is to bring our customers true everyday exceptional value and honest prices. "Ticketed" Price [sometimes abbreviated as "Tkt'd" Price]: A Ticketed price can be a price the manufacturer suggests for an item, upon which Boscov's may offer a discount. A Ticketed price may also be a comparable value as determined by our buyers, who estimate retail prices of the same or similar products sold at principal retail outlets in the trade area, which may include department stores, specialty and other similar stores, e-commerce and catalogs. For Boscov's own manufactured merchandise and certain special buys, a Ticketed price may also be a price that Boscov's establishes for a different but comparable item of essentially similar grade, quality and quantity offered by principal retail outlets in the area. The Ticketed price of an item may not have resulted in actual sales and may not have been in effect during the past 90 days. That may happen for items on clearance. And, intermediate price reductions may have been taken. Ticketed prices may change over time, but our goal is to provide you with a useful point of comparison of what you may have paid or expect to pay in a competitive store, so you can be sure you're getting honest prices.
